

## Literacy

Ask your child to write about their holidays or trips to the park or even their journey to school! It would be great to see some writing about journeys or weekend trips!

## Maths

At the end of Reception Year, all children should be able to:

Count reliably with numbers from one to 20. Say what one more/less than a given number is.

Add and subtraction 1 digit numbers

Double and half amounts through sharing and grouping.

Please practice these maths concepts at home with your child by writing sums, using objects and questioning!

## Reception Home Learning

### Summer Term 2

#### **Our Topic is: Journeys**

Please read the home learning grid to your child. We would love the children to

share their home learning with us during show and tell times this term!

It would be great to see children's home learning on tapestry too, please do log in and add photos! I look forward to seeing them!

**Please read with your child everyday and write in their green reading records once a week.**

**Many thanks for your continued support!**

## Arts and Design

Make a type of transport using paints or colouring pens/pencils. You could also use different coloured paper or stampers to create your car/bus/boat etc.

## Technology

Encourage your child to use technology at home! Some websites that we use for maths and literacy learning include:

<http://www.ictgames.com/>

(click on maths games)

<https://www.topmarks.co.uk/>

(Go to Early Years on the left hand side, all games are tablet friendly!)
