

Literacy

- Write out the story of Jack and the Beanstalk - use paragraphs.
- Teach your family the parts from the play script to act it out.
- Become a Play Script writer, and produce your own play using ideas from Jack & the Beanstalk
- Ask an older member of your family to write a story with lots of mistakes and then you can edit it by making it sound more exciting.

Art

Why not create your own print designs? Use Kiddle.co (child friendly search engine) to find designs on textile and print. Use an improvised stamp to create your own print patterns.

Science

Use Kiddle to do some research on healthy eating. Find out what foods makes the brain function well. You can also find out about the life cycle of a penguin, butterfly, frog. Find some facts about animals around the world using the National Geographic Kids website.

How do we decide where to live?

Maths

- Have someone give you two one-digit numbers and see if you can add them mentally. If you got it right, write them down to show the class.
- Impress the class by showing us three-digit addition and subtraction equations which involve regrouping!
- Multiply a two-digit number by a one digit number set out in the column method.
- Try out division equations without remainders. Can you use your times table knowledge to help you? Write about what you found helpful.

Reading

- Show someone at home how you add suspense by reading slowly at build up moments just before action.
- Try reading with fluency and **expression**.
- Why not recreate the story you are reading through drama.

Topic

- Draw a picture of a wheelbarrow from today and something people used for carrying things in the time of the first settlers.
- Write a recount about what life might have been like as an early settler in Britain
- If you could travel back in time, what would you take with you to show the people of Britain? Why would it be useful for them? What would you bring back with you?
